## Protect Beach Birds Over the Holiday Weekend

- Keep personal fireworks away from nesting birds and off the beach. Fireworks can scare chicks to death.
- Pay attention to signs and walk outside the roped off sections of beach and around resting birds.
- Leave your pets safely at home.
- Dispose of trash in designated receptacles to keep the beaches clean.
- Notify beach stewards if you see nests outside the roped-off area.
- Ask questions! Bird stewards love talking about Florida's beach-nesting bird species.
